INDEX TO VOLUME XXXII.

SUBJECT INDEX.

A

Acid-resisting Bronze, 117.
Alloy Steels, 162.
Aluminium Alloys, Properties of Some, 193.
Aluminium Copper and Zinc, The Constitution of Alloys, 203.
American Foundrymen's Association, 296.
Annealing Operation in a Malleable Foundry, A Consideration of the, 392.
Apprentice Moulder, Training of, 437.
Australian Foundry Extension, 269.
Australian Road Roller, 457.

B

Basic Open-Hearth Furnace, Reaction of the, 77-97.
Binocular Magnifier, 138.
Black Heart Malleable, Electrically Produced, 325.
Blast-Furnace Practice, 393.
Blisters on Cast-Iron Plates, Cause of, 132.
Brasses, with Nickel and Manganese, Manufacture of, 447.
Brass, Iron Impurity in Cast Red, 166.
Brinell Hardness and Tensile Strength of Cast Iron, 432.
British Cast-Iron Research Association, 452.
British Industries Fair, 269.
British "Perlit" Iron, 92.
Bronze-Welding Cast-Iron Gear Teeth, 259.

C

Carbon Steel and Carbon-Vanadium Steel by the Converter Process, 301.
Carbon Steels containing Nickel and Chromium, Influence of Tungsten on Medium, 224.
Castings, Scotch Progress in the Production of Heavy, 126.
Castings, The Production of, 35, 53.
Castings which give Trouble under Pressure Tests, 204.
Cast Iron and Modern Engineering Practice, 533.
Cast-Iron Heat Treatment and Volume Changes of Grey, 49.
Cast-Iron Houses, 455.
Cast Iron, Influence of Rate of Cooling and Casting Temperature on, 275
Cast Iron, Influence of Various Elements on, 71.
Cast Iron, Low Carbon Produced in Cupolas, 255.
Cast Iron, Low-Temperature Heat-Treatment of Special, 123.
Cast Iron, Mechanical and Physical Properties of, 31, 101, 118.
Cast Iron, New Wüst Furnace for Refining Special, 487.
Cast Iron, Practical Points and Recent Researches in, 427.
Cast-Iron Railings, 309.
Cast-Iron Refining, Methods and Aims of Grey, 100.
Cast Iron, Testing of, 81.
Cast Iron, The Magnetic Properties of, 260.
Cast Iron, The Testing of, 40.
Cast Iron, Wrought Iron, and Steel Manufacture, Some Fundamental Relationships in, 321, 341, 373.
Centrifugal Casting Process, with Special Reference to the Hurst-Ball Process, Notes on, 361, 381.
Centrifugal Castings, Innovations in, 175.
Chilled Iron Rolls, Experiments in the Manufacture of, 27.
Clays for Cupola Furnaces, Structure of, 62.
Cleaning of Castings Regulations, 87.
Cobalt Plating, 469.
Commercial Aspects of Foundry Work, 454.
Commercial Steels, 86, 121, 138.
Complimentary Dinner to Mr. A. Moore, 286.
Concrete Floor, Curing a Dusty, 281.
Contraction Defects, 429.
Copper-Cadmium Alloys Rich in Cadmium, The Physical Properties of, 198.
Copper Castings, Notes on, 372.
Copper Industry of America, 198.
Copper Tank, Repairing a, 192.
Copper-Zinc Alloys, Beta Transformations in, 332.
Core and Mould Drying, 339.
Core-Making Machine, Power-Driven, 155.

Correspondence:—

Foundry Technical Institute, Falkirk, 46.
Foundry Equipment Business in the Dominions, 295.
Heat-Resisting Cast Iron, 27*d*.
Income-Tax Depreciation Allowance, 20.
Industrial Depression, 227.
Lantz Perlit Iron Process, 422.
Large Ingot Moulds, 526.
Nickel-Chrome Resistance Alloy, 486.
Nomag Iron, 112.
Offering of Foreign Foundry Plant in Great Britain, 274.
Pearlitic Cast Iron, 380, 402, 462.
Perlit Iron, 26, 46, 380, 402, 414, 422, 442, 484.
Perlit Propellors and Diesel Engine Liners, 377, 398.
Permeability and Venting of Moulding Sands, 132.
Special Irons, 506.
Venting of Moulding Sands, 26, 46.
Wakefield Prison Foundry, 414.
What is the Matter with British Industry? 251, 254.

Corrosion and Alloy Steels, 281.
Corrosion of Aluminium Alloys, Passification and Scale Resistance in Relation to, 203.
Costing Applied to Non-Ferrous Foundries, Standard, 177.
Costing of Patterns, 112.
Cranes, Dust-Proof Foundry, 347.
Crucibles, Notes on Graphite, 124.
Cupola Furnaces from the Point of View of Heat Economy, Adjustment of, 133.
Cupola Melting Rate, as Affected by Tuyere Ratios, 310.
Czecho-Slovak Foundrymen's Association, 234.

D

Davis Steel Wheel, 243.
Defective Castings, 408.
Definitions of Steel and Cast Iron, on the, 154.
Diesel Castings in Pearlitic Cast Iron, Production of, 449, 471, 496.
De-oxidising Processes for Non-Ferrous Metals, 61.
Design of a Modern Foundry, 17.
De-sulphurisation in Cupolas, 61.
Dilatometric Investigation of Cast Iron, 156.
Dilitation of Cast Iron during Repeated Heating and Cooling, 235.
Direct Process for the Manufacture of Steel, New, 284.
Dry-Sand Moulding, 415.
Ductility of Steel, Effect of Oxy-acetylene Cutting on, 188.
Dusseldorf Foundry Exhibition, 156, 212.

E

Edge Tools, The Care of, 81.
Electric Resistance Furnace, 60 K.V.A., 280.
Electric Steel Castings, Some Metallurgical Points in, and Notes on Defects, 549.
Ermack Spot Welding Machine, 167.

F

Feeding Ingots, 39.
Fettling Methods in an American Automobile Foundry, New, 180.
Fluxing in Cupola Practice, 459.
Foundry Coke, Valuation and Testing of, 61.
Foundry, Design of a Modern, 17.
Foundry Organisation, 500.
Foundry Planning for Economical Production, Discussion on, 19.

Foundry Queries:—

Acid-Resisting Bronzes, 87.
Blast Pipes, 548.
Casting Brass on Metal Rollers, 486.
Coal Dust, 486.
Melting Losses, 59.
Metals Suitable to Stand Red Heat, 8, 26.
Power for Shot Blast, 22, 26, 92.

Foundry Tackle, Improved, 298.
Foundry Training from Apprenticeship to the Foundry Technical High School, 511.
Foundry Wasters, 338.
Franco-Belgian Foundry Congress, 274, 391.
Frémont Tests on a Varying Section of Grey Iron, Some, 182.

INDEX TO VOLUME XXXII.

SUBJECT INDEX.
